

ROAD APPLE EXPRESS

Equine Taxi

Terms

- Please be assured that we will treat your horse respectfully and safely. The horse owner needs to be present when loading their horse. If you are not available, you may designate a responsible party to be present in place of you. Methods of loading that are unacceptable are wrenching through the front, the use of a butt strap, or heavy whipping. I am not a trainer, but am experienced in handling horses, and will be happy to assist you. Once the horse is sent into the trailer, Road Apple Express is responsible for tying your horse and securing the divider.
- Please note below that the “hook-up” fee includes a 20 minute loading time. If the horse continues to resist beyond 20 minutes there will be additional fees.
- If your horse should happen to struggle and injure itself during the loading, unloading or transporting process, Road Apple express will not be held financially responsible for the veterinary costs that may incur.

Pricing

- \$70.00 flat fee that covers the first 20 miles (emergency call fees are subject to a higher rate). Mileage begins and ends at my home base location in Loomis.
- Additional \$10.00 charge for each horse.
- \$2.00 per mile for every mile beyond 20 miles. Adjustments in pricing will be made to accommodate a longer haul.
- There will be a \$20.00 charge for each 20 minute period beyond the initial 20 minutes given to load your horse.

Agreement

I _____ have read and agree with the terms written in the above document.
